

Efficient Mold Setting

Train your employees to quickly understand the skills needed to make mold setting an efficient part of your molding process. After completing this course, employees will:

- ◆ Use consistent set up and removal procedures
- ◆ Exercise greater control over the molding process
- ◆ Increase their awareness and safety in the mold handling stages
- ◆ Eliminate careless mistakes

Recommended For:

Set-Up, Mold Maintenance and Machine Operating Personnel

Efficient Mold Setting is a course specifically designed to teach your employees valuable skills for the mold setting and removal stages of the injection molding process. This course teaches basic procedures on how to avoid damaging the mold during mold transportation, mold installation, startup, production and shutdown. Efficient Mold Setting is excellent for new employees as well as a great refresher course for veteran molders.

Efficient Mold Setting Lessons

1

Lesson

Mold Installation and Setup Procedures:

Explains procedures for transporting, installing and setting up injection molds. This lesson also describes in detail the safety procedures involved when working with molds, moving the mold from the storage area to the injection machine, the installation of the mold between the platens, and basic mold startup and operating procedures.

2

Lesson

Mold Troubleshooting, Removal and Storage:

Discusses potential mold problems that may occur during operation, as well as the procedures for machine shutdown, mold removal and mold maintenance and proper storage.

Paulson's fully interactive training program gives your employee valuable skills for the mold setting and removal stages with full motion video, text, audio and 3-D graphic animation.

PAULSON'S INTERACTIVE LEARNING SYSTEM

- ◆ **More Effective Training:** Get a 40% increase in knowledge retention and comprehension using interactive technology.
- ◆ **Scheduling Flexibility:** Training is available to all shifts, 24 hours a day without affecting production.
- ◆ **Automatic Record Keeping:** You can test and track employee progress automatically.
- ◆ **No Instructor Required:** Fully interactive format provides either a self-paced, one-on-one or classroom learning environment.

- ◆ **Reduced Training Costs:** Train on company time without loss of production. No dedicated instructor, no overtime and no overhead add up to large savings.
- ◆ **Increased Motivation:** Immediate feedback and personal involvement are key factors in training effectiveness.
- ◆ **Complete Curriculum:** Paulson's fully interactive training program give your employee valuable skills for the mold setting and removal stages with full motion video, text, audio and 3-D graphic animation.
